All -- the Russian VENIE vessel is currently engaged in activities to support Russia's Fortuna pipe-laying vessel as it lays pipe for Nord Stream 2 in violation of mandatory U.S. sanctions laws. The Fortuna was sanctioned last month under CAATSA and is blocked property under OFAC. Both the Fortuna and VENIE vessels, together with other firms that are currently engaged in Nord Stream 2 pipe-laying support and facilitation activities, must be sanctioned under the Protecting Europe's Energy Security Act (PEESA) and Protecting Europe's Energy Security Clarification Act (PEESCA), which were passed with overwhelming bipartisan support as part of NDAA '20 and '21.
